Transferring data from SLIM21 with Webopac library Software (3.6.0) to

Master Software ERP Libman Cloud (2.1.0) with mobile opac

Our college has purchased the CMS 8.0 in the year 2012 for office automation. Now, this CMS is available Cloud based Centralized Campus Management System (CCMS-ERP) Enterprise Resource Planning (ERP) with Libman 2.1.0 with mobile opac. Our parent institute has completed the agreement with master software, Nagpur on 17 sept 2022, and suggested me to transfer library books data to new Libman 2.1.0. This year (2022-2023) college has paid Rs1,23,181/- for CCMS-ERP software and under this cloud based Libman 2.1.0 facility is providing by company. Now, we are transferring data from SLIM21 to Libman 2.1.0 and starting work in the Libman 2.1.0 with the same price with mobile opac. This new software expenditure has held in the Audited statements. So, we are giving the agreement copy with this letter and updating our library automation work and services in minimum price in the new software.
